OPENING A NEW ROAD

The McKeesport and Belle Vernon Railroad Through to Monon. City.

A GREAT DAY FOR VALLEY PEOPLE

Celebration of the First Train's Arrival Quite Memorable.

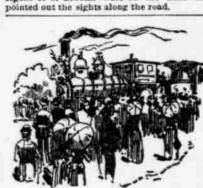

AN EVENT TO HAND DOWN TO HISTORY

ing pocket handkerchiefs to see the first train from Me-Keesport through to Monon

The citizens of the latter place at a public meeting had arranged all the details of the ovation. The Reception Committee, composed of Mayor Robinson, M. Borland, H. Sandefeld, S. P. Keller, J. M. Grable, T. S. McCurdy, John Blythe, Isaac Yohe, Colonel Greev. Adam Keil and others, went to McKeesport early in the morning and at 9:20 A. M. the train, with a special car attached for the visitors, left McKeesport. General Super-intendent and General Passenger and Freight

Agent J. C. Grooms were on the train and

City go by.

Many Monongahela Citizens to Meet It.

DELEGATIONS ALONG THE LINE. Among the McKeesport delegation were W. S. Abbott, of the Times; James L. Devenny, of the News; J. B. Shale, Postmaster: W. J. Sharpless; President Board of Trade: ex-Burgess Tillbrook, ex-Burgess Alonzo Inskeep, J. W. Bailie, Hon. A. B. Comes, W. E. Harrison, Councilmen E. P. Douglass and R. J. Black, and Thomas Reynolds, a director of the road. The Council of Reynolton, a suburb of McKees-

port, came in a body.

The ride to Monongahela City was through beautiful section of country. The air was cool, and the trip a success in every way. The cool, and the trip a success in every way. The road hugs the left bank of the Monongabela river, giving on one side a view of the mountain side covered with forests, glens, rocks, groves, etc. Peeping through the trees the traveler ever and anon catches glimpses of farm houses in the more open portions, and from Pollock to Monongahela City, a succession of coal mines, with their tracks laden with care, are seen winding up the hillsides. There is a large quarry at Frantz, where material for grindstones is gotten out. At Lovedale are large coal mines.

large coal mines.

Elizabeth, a borough of some 1,200 inhabitants, is the first large town on the road. Here another delegation of citizens boarded the train. Among them were Burgess George W. Roberts, R. V. Blankenbeler, Clerk of Councils; Josiah Speer, County Controller, and R. T. Wiley, of the Elizabeth Heraid.

At East Elizabeth and O'Neil (the first station south) are large coal mines. The first station past O'Neil is at Lock No. 3. The land for a half mile along the river front is owned by Secretary of State James G. Blaine, and is very valuable undeveloped coal land. Ennola a little station near which are O'Neil & Peterson's large coal mines, was named after a brand of offee and the sign presented by the firm dealing in the coffee is over the door of the station. The citizens could not agree on a name and preferred something out of the usual order. While they were in conference a man picked up a package of coffee and suggested the name of the coffee, "Bunola," which was caught up and adopted by the citizens. The firm afterward sent the miners a gift of 100 packages of coffee.

firm afterward sent the miners a gift of 100 packages of coffee.

At Elkhorn, about two miles from Monongabela City, is a picnic ground called Shehola Glen. Several Indian graves have been found there. Local historians say that it was near here that Queen Aliquippa held her conference with Washington. Washington at one time surveyed the present size of this road, for the Governor of West Virginia, for a great National highway. Some of those connected with the road said that while excavating at one point the steam shovel scooped up several Indian graves, with the skeletons still well preserved, and along with them a quantity of arrowheads and other implements of war.

TREES GROWING IN BOCKS.

TREES GROWING IN ROCKS.

At another point along the road several trees the Estey at Hamilton's, 91 and 93 Figh rere seen, which had grown through rocks. The description given is of the left bank of the river going up. Across the river, along the line of the Pittsburgh, Virginia & Charleston

the river going up. Across the river, along the line of the Pittsburgh, Virginia & Charleston Railroad, is a charming farming country, with coal mines peering out between the hills. The whole scenery is superb, and is not paralleled or surpassed in the country.

The roadbed of the new road is very smooth, the steel rails being well ballasted with rock and slag. As the train sped along, stopping here and there. The DISPATCH reporter, in company with other newspaper men, enjoyed the view from the rear platform.

The train neared the outskirts of Monongahela City at about 10 o'clock, and was greeted by the blowing of whistles and booming of cannon, waving of handkerchiefs and a general burral. Handkerchiefs fluttered from every window, and even sheets were flung to the breeze. The workmen in all the mills were out to horald the approach of the train. The people seemed to have gone wild with joy. As the population of this little city of 5,000 mhabitants were heralding the advent of a new highway, the excess of their joy carried the reporter in memory back to the time of the opening of Davis Island dam. The latter event could not have seemed more significant to Pittsburg than the competing railroad does to Monongahela City.

As the train slowly pulled into Carrolton, across the river from the city proper, it was surrounded by

Carriages were in waiting for the visitors and

up to Walnut Farm, where the new city reserup to Walnut Farm, where the new city reservoir is in course of construction. It is at an elevation of 165 feet above the street level, near the river, and when done will have a capacity of 1,006,600 gallons. The work is being done by the Monongahela Water Company, a private corporation.

From the reservoir the visitors were driven through the different streets of the city, ending up at City Hall, where a general jubilee was held. Colonel Chill W. Hazzard, editor of the Republican, was chairman. Mayor Robinson held. Colonel Chill W. Hazzard, editor of the Republican, was chairman. Mayor Robinson read a welcome to the city. Superintendent Ritchie made a short speech as a representative of the railroad, after which the representatives of each place, as follows, made a few remarks of congratulation: McKeesport, Messrs. E. P. Douglass, Sharpless, Fillbrook, Captain A. B. Camel; Reynolton, Rev. McBridet Ellzabeth, Controller Speer, Rev. J. J. Hill; Monongahela City, ex-Senator Lawrence, William McGregor and Colonel Chill Hazzard, The telegram to the hotel, ordering the dinner for a large number, was not received until late, and, to fill in the time. Chill Hazzard talked against time. "Jolly Chill" was at the head of everythat might have marred the pleasure of some few.

When the hour had turned to I P. M., and clonel Chill had nearly run out of wind, the hotel people gave the call for dinner, and the hungry visitors rushed for the Hetel

pared.

The return to McKeesport, leaving Monongahela City at 4 o'clock, was uneventful.

Now for something in regard to the cause of all this joilification. The McKeesport

and Belle Vernon Railroad, now, built to Monongahela City, about 14 miles from McKeesport, is supposed to be one of Vanderbilt's extension schemes. It connects with the "Pemicky" at McKeesport, the latter road being, as is well known, an adjunct of the Lake Erie. At present the prospective terminus is Fayette City; but it is generally understood that at no distant day it will be pushed into West Virginia and form a link with the West Virginia Central from Fairmount to Morgantown, the latter place being 90 miles from Fayette City.

FACTS ABOUT THE BOAD. The road was commenced in 1887 and has been in operation to Elizabeth since February. Its present capitalization is \$600,000. Drake & Stratton, contractors, of New York, are doing the work. Mr. Drake said yesterday that the ONONGAHELA
City fairly went wild

on on Garage wild stock in it, nor had any arrangements been made to attach the road to any system. The resources from which the line is expected to draw its revenue will consist in yesterday over the tormal opening to that point of the McKeesport and Belle Vernon Torifice and Belle Vernon Torifice and Torifice and

port and Belle Vernon
Railroad. The event
was made a holiday
all along the line from
McKeesport to Monongahela
City, and the citizens of every
hamlet were out with fluttering pocket handkerchiefs to

RURAL HESITANCY.

Southside Oll and Gas Development Demornlizing Farmers - Agriculture

Thrown to the Winds. It has often been said that to work a silver mine ordinarily consumes the profits of a gold mine. Whether this be true or not, it is

other things, it is doubtful if all the petroleum ever produced has paid cost of production, though, of course, combinations and individuals have grown immensely rich by handling it, and a vast amount of employment has been furnished in its development. The storing of 40,000,000 barrels surplus was also an immense waste from deterioration by evaporation.

Just at present there is considerable demoralization among farmers in the southside of this county. Instead of studying how to compete with the agricultural products of the West and South they are, many of them, oll-crayy and are allowing their farms in a great measure to lie fallow, and it is said, and known to be partially true, that there are farmers in Stowe, Robinson, Chartiers and Moon townships that have not only mortgaged their farms, but are actually borrowing money to pay interest on the mortgages.

borrowing money to pay interest on the mortgages.

There is at present much interest attaching to the well on the Moore farm in Robinson township. From the best information attanable, it appears that the oil output did not pay, but the explorers found gas, and the present agony is to determine the pressure, and that is what it seems no fellow but the operators can determine. Some say it is 120 pounds, while others say 450. If the former, it is only good for local consumption; if the latter it will pay for piping. Some people opine that the Philadelphia Company and others than the Standard Oil Company are interested in not only suppressing information, but also in husbanding the product, whatever it may be. The latter would be an exhibition of good sense, as there being a surplus of production it is good policy to preserve as much known territory intact as possible.

It is said the lessors are talking of surrender-It is said the lessors are talking of surrender-ing leases, Others have expressed a disposition to take the present lessors' places, and, several parties having been making inquiries with ap-parent intention of purchasing territory out-right, some holders have become stiff in their

Going to Johnstown. The ladies of the G. A. R. Relief Committee have decided to remove their headquarters to have decided to remove their headquarters to Johnstown. They think the work of distribu-tion can be done better there than here. The Ladies' Relief Committee distributed 1,000 pieces to 40 persons yesterday. The demand is rapidly failing off.

A Bridge Washed Away. The bridge on the Lake Erie over Brady's run, below Fallston, was washed away yesterday morning. All trains were held for five hours, and many suburban people lost a day's work.

WHEN distressed and out of sorts, with a low vitality and moody spirits, a good tonic, such as Dr. Jayne's Tonic Vermifuge, will often set the system in order, and assist nature in maintaining normal strength. It is the best medicine in the world for curin worms in children, ridding their bodies o pests which sap their constitutions, and which, if unattended to, render their lives miserable by their distressing symptoms. When used as a tonic, the larger sized

M. Curry, of Carnegie, Phipps & Co., Thinks It Means Much.

IT WILL TEND TO LESSEN PREIGHTS

The latest invention of Thomas Alva Edison, the "Wizard of Menlo Park" (a magnetie ore separator), will be of great importance to the iron manufacture of this country, if the invention be as successful as the experiments at Bechtelsville, near Reading, indicate. These experiments were copcluded last Saturday, and the working of Mr. Edison's invention is explained in this way: The rock containing the ore, after passing through the crusher and being broken to about the size of an egg, is conveyed in small buckets and dumped into a large hop-per. From here it drops out in a small stream down an incline and passes within a few inches of a powerful magnet. This is so heav-ily charged as to draw the iron ore from its course into one channel, and the rock and other foreign elements contained in the ore are per-mitted to pass through another channel to the

refuse pile.
Mr. H. M. Curry, Vice Chairman of Caroemine ordinarily consumes the profits of a gold mine. Whether this be true or not, it is certain that, under our present knowledge of mineralogy, geology, etc., the procuring of some of earth's treasures is attended with a vast amount of cost and demoralization. Perhaps it is as well, as the frittering away of treasure consequent not only disseminates it in a measure among the needy, but possibly prevents its application to less useful purposes, and though the greater part may be lost, yet possibly worse results might accrue from congestion. It is a well-anders of the waste from fire and other causes, such as boring in dry territory, loss of tools through ignorant management and many other things, it is doubtful if all the petroleum ever produced has paid cost of production, though, of course, combinations and individuals have grown immensely rich by handling it, and a vast amount of employment has been furnished in its development. The storing of 40,000,000 barrels surplus was also an immense waste from deterioration by evaporation.

Just at present there is considerable demoralization among farmers in the southside of this county. Instead of studying how to compete with the agricultural products of the West and South they are, many of them, oil-craxy and are allowing their farms in a great measure to lie fallow, and it is said, and known to be partially true, that there are farmers in Stowe, Robinson, Chartters and Moon townships that bave not only mortgaged their farms, but are actually borrowing money to pay interest to nite more interesting to the control of the west and the result will be a falling off in price. The porthern part of the country, because when the magnetic separation has divided the from from other minerals and the required metal can be sent anywhere, the iron supply with the agricultural products of the West and some falling off in price. The porthern part of the partially true, that there are farmers in Stowe, Robinson, Chartters and Moon townships that bave core are good if they can be se gie, Phipps & Co., when asked yesterday what influence such an invention would have on the iron market in Pittsburg, said: "If the

THE LATEST TRUNK LINE.

This Time President Corbin Will Count a Number of Roads. It is now rumored that Austin Corbin, President of the Reading road, will establish another line from New York to Chloago. The rumor states that the Reading road will be used to Harrisburg and 100 miles of road will be built Harrisburg and 100 miles of road will be built to connect with the Pittsburg division of the Baltimore and Ohio. The Ohio, Indiana and Western, with its connections, will be used from Columbus to Chleago, Between Pittsburg and Columbus they will try to make running arrangements with the Pittsburg and Western and the Cleveland, Akron and Columbus.

NOT TO CAVE IN AGAIN.

That Red Pond Drop, and the Burial of One of Its Victims. Chief Bigelow has ordered cribbing to be built over the well of the Red pond, so that it will not clog the mouth of the sewer again. The injured men are doing well and will re-William Daily, late of High street, the best-knewn of the victims—a warm-hearted, kindly fellow—who supported a large family and is mourned by a host of warm personal friends, will be buried this morning.

BOILING WATER.

An Allegheny Firm Has Gone Into the Condensing Business. Some progressive Allegheny people are boil-ing water for public use, which they sell for 3 in a large tank and then condensed, leaving it minus all traces of animal life. Superintendent Armstrong, of the water works, says he will put in a meter, because it requires five gallons of water to make one of the distilled.

Judge Cummin has made Mr. W. R. Thomp in Johnstown this week. Mr. Thompson said yesterday he would get the money in New York, and stay at Johnstown until it was paid out.

There are several cogent reasons why the medical profession recommend and the public prefer Hostetter's Stomach Bitters above the ordinary cathartics. It does not drench and weaken the bowels, but assists rather than forces nature to act; it is botanic and safe; its action is never preceded by an internal earthquake like that produced by a drastic purgative. For 55 years past it has been a household remedy for liver, stomach and kidney troubles, malaria and rheumatism.

Remodeling Sale!

For a few days only, greatest bargains in onyx, fine French and American clocks, silverware, etc. Rather than remove them while making extensive repairs to our store, will sell at cost and less than cost.
